**Cluster Leader (Influenza and Infections of Public Health Significance)**

**School of Public Health, LKS Faculty of Medicine, The University of Hong Kong**

Professor Guan Yi is a world leading field virologist specializing on emerging infectious diseases. He and his group identified the zoonotic source of the SARS coronavirus and the precursors and evolutionary pathways of the major influenza viruses affecting humans and livestock (the H5N1, H7N9, H9N2 and 2009 pandemic viruses) and of the MERS coronavirus. His work seeks to avert and control outbreaks of these viruses for the benefit of veterinary and public health.
