

香港大學
THE UNIVERSITY OF HONG KONG

Professor Man-fung YUEN
Deputy Head, Department of Medicine
LKS Faculty of Medicine, The University of Hong Kong

Professor Yuen obtained his first bachelor's degree of medicine in 1992. He further pursued his academic excellence through the achievement of obtaining three doctoral degrees including Doctor of Medicine with Sir Patrick Manson Gold Medal in 2001, Doctor of Philosophy in 2005 and Doctor of Science in 2017.

Professor Yuen's research interests include prevention, natural history, serology, virology and treatment of chronic hepatitis B and C, and hepatocellular carcinoma. He is one of the top internationally renowned researchers in the field of hepatitis B disease. He has now published more than 450 papers in world-renowned medical journals including *New England Journal of Medicine*, *Lancet*, *Lancet Infectious Diseases* and *Lancet Oncology*.

As a world-class clinician scientist, Professor Yuen is now leading most of the international trials examining new drugs including antiviral and immunomodulatory agents for the treatment of chronic hepatitis B. He is also actively performing cutting-edge research on novel markers for hepatitis B infection and occult hepatitis B infection.

With all these international academic and professional achievements, Professor Yuen is an invited member serving as key opinion leader for several international coalition committees on hepatitis B disease. Professor Yuen is also honourably invited by The Nobel Assembly at Karolinska Institutet to nominate candidates for the Nobel Prize in Physiology or Medicine for both 2020 and 2021.

As a specialist of Gastroenterology and Hepatology, Professor Yuen have been providing clinical care and services for patients at Queen Mary Hospital, The University of Hong Kong for more than 20 years. He is also serving as medical advisor and consultant for different health related sectors of the Government of Hong Kong, many academic centres and commercial enterprises for different aspects related to the diseases of Gastroenterology and Hepatology. In recent years, he has been greatly involved in assisting the development of innovation and technology in Hong Kong by acting as an active member for Innovation and Technology Fund, The Government of the Hong Kong Special Administrative Region. To assist the Hong Kong Government for achieving the goal of elimination of viral hepatitis infection by 2030 called by the World Health Organization in 2016, Professor Yuen has been involved as a key member of the Steering Committee on Prevention and Control of Viral Hepatitis, Food and Health Bureau, The Government of the Hong Kong Special Administrative Region.
