The webinar

In the 2017 Policy Address, the Chief Executive highlighted a new policy initiative to promote Modular Integrated Construction (MiC). This policy was repeated in the 2018 Policy Address to emphasize the wider adoption of MiC for innovative construction in Hong Kong. Today's event is to launch three MiC booklets produced by the CICID of HKU. The aim of these booklets is to support Government's policy initiative and to bring clarity and new understanding of MiC for construction development in Hong Kong.

The three MiC booklets are:

MiC for high-rises: Measured Success reports on the measured performance of two high-rise MiC projects using a systematic framework of KPIs to demonstrate evidence-based benefits from adopting MiC for high-rise development.

A Glossary of MiC provides, defines and illustrates a comprehensive list of terms of MiC and offsite construction, with the aim to improve the understanding of the construction industry and knowledge community about MiC, and thus to enable the industry and community to pursue the journey of MiC on a consistent knowledge base.

MiC Performance Measurement Guidebook aims to develop a KPI-based project performance measurement framework for project stakeholders to comprehensively measure and effectively benchmark the social, environmental and economic performance of MiC high-rise building projects.

Programme

| Time | Agenda | Speaker |
|----------------|--|---|
| 5:30 - 5:35 pm | Welcome Remarks | Professor Christopher Chao <i>Dean of Faculty of Engineering, The University of Hong Kong</i> |
| 5:35 - 5:40 pm | Keynote Speech: MiC Measured Success | Ir LAM Sai-hung, JP <i>Permanent Secretary for Development (Works), HKSAR Government</i> |
| 5:40 - 5:50 pm | Photo sessions | |
| 5:50 - 6:05 pm | Overview of Three MiC Booklets and Way Forward | Professor Wei Pan <i>Executive Director, CICID, The University of Hong Kong</i> |
