

Dr. Anthony R. Tam graduated from the University of Hong Kong with distinction in medicine in 2013. He received his training in Infectious Disease and Internal Medicine at Queen Mary Hospital, Hong Kong in 2014-2021. He further completed a 6-month post-doctoral research fellowship under Dr. David D. Ho at Aaron Diamond AIDS Research Center, Columbia University, New York, USA in 2023. He is currently an Honorary Clinical Assistant Professor in both Departments of Medicine and Microbiology, School of Clinical Medicine, University of Hong Kong. His clinical and research interests include drug-resistant bacterial infections, antiviral therapy and vaccinations (especially in the context of SARS-CoV-2) among immunocompromised patients such as haemopoietic stem cell and solid organ transplant recipients.
